September 2006

Dear Sir or Madam

You may be aware that as from January 2007 all our journals will be published by John Wiley and Sons Ltd, and from that date online access to the Quarterly Journal of the Royal Meteorological Society and Weather will be through Wiley Interscience and not, as at present, Ingenta. If you already subscribe to other journals through Wiley you will be able to add these journals, plus Meteorological Applications, which was previously published by Cambridge University Press on our behalf, to your existing Access License. Your Wiley's account manager will be able to assist if you need any additional information, but please do not hesitate to contact me if I can be of any help.

Yours sincerely

A handwritten signature in blue ink, which appears to read 'Althea Howard', is positioned above the typed name.
